Ulm (GER)

From October 3rd til October 10th 2009 a small group of german students will be guest on the Peace Boat. This student programme runs the third time now. The excursion is organized by the Institute for Peace Education Tuebingen (ift) and the Institute of Political Science (IfP) of the University of Tuebingen. The group consists of employees of the ift and IfP as well as students from the University of Tuebingen who are active in Peace Research and Peace Education.

The idea of this excursion is to meet people in different conflict regions who are active in peace issues as well and to have encounters with the people on Board to encourage cultural exchange.

During the last six months the students prepared programmes in the ports of Kusadasi, Piraeus, Valetta and Rome with NGOs, University Groups, Political Parties, experts in dealing with peace and conflict research. On Board there will be a big presentation about the issue »Dealing with the Past«

The challenge of dealing with a violent past is one of the main issues for this excursion. In this context, the German group will contribute an overview of the issues currently shaping discussions of peace-education in Germany as well as insight into the German experience of coming to terms with its own violent past.
